

STOCK MANAGER

Illustrated Guide

A picture tour of every screen — with real screenshots of the app and simple steps for each one.

Inventory, Billing & Load-Form manager for your distribution business.

Screenshots use sample data; your own company name and logo appear at the top-left.

Version 2.0

This guide walks through every screen of Stock Manager with a real picture of it and a few simple steps. You can read it in order the first time, or jump to the screen you need. The menu down the left of the app is always there — click any item to open that screen, or use the keyboard shortcuts on the last page.

Before you start

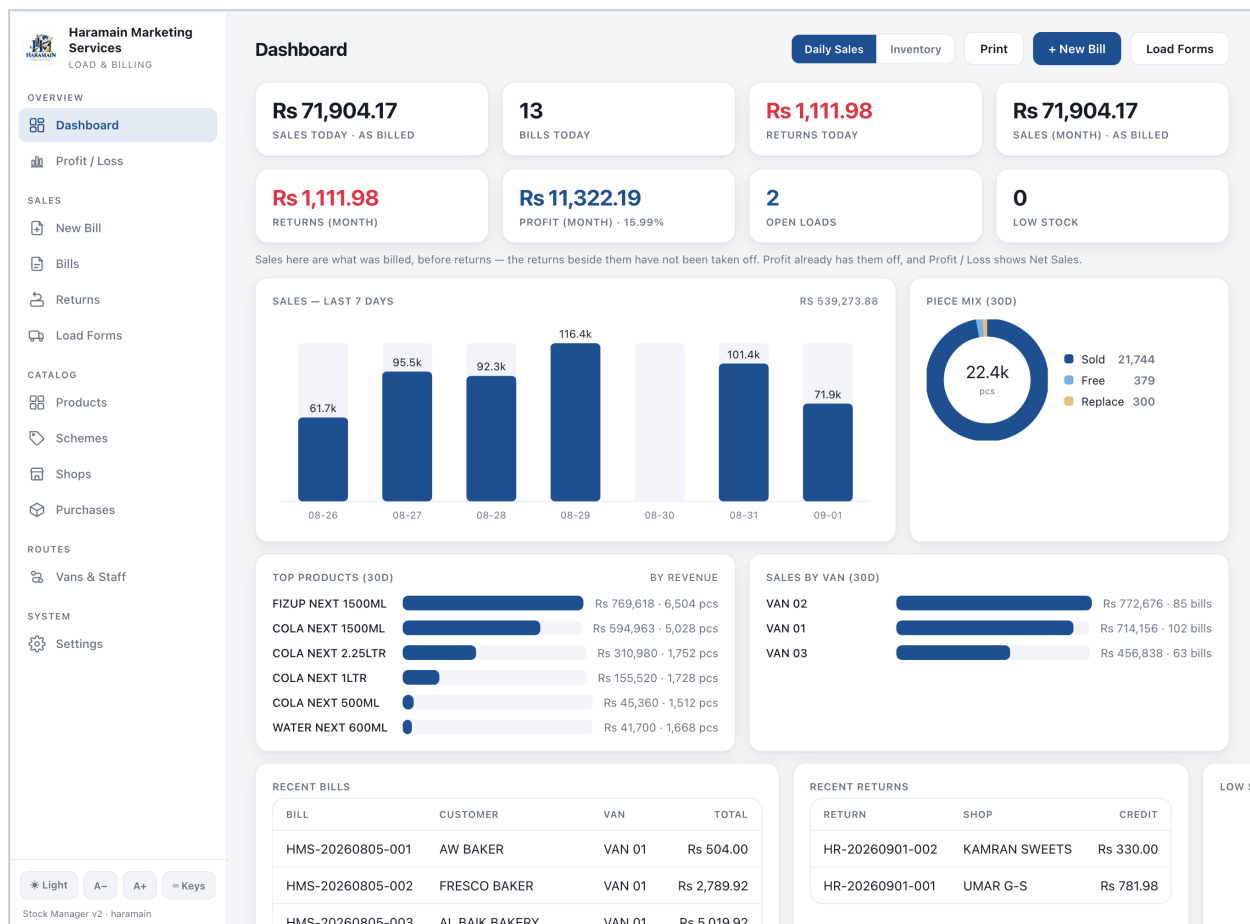

Install the app (run the “... Setup 2.0.0.exe”). The first time Windows may warn because the app is not signed — click **More info**, then **Run anyway**. Then set your company details in Settings, and take a backup every week.

A note on these pictures

The screenshots use pretend sample data so you can see full screens. In your app the numbers are your own, and your company name and logo show at the top-left.

1 The Dashboard — your day at a glance

This opens first. It shows today's and this month's sales, returns and profit, plus charts of the last 7 days, your best products, and sales by van.

- **Sales Today**, **Bills Today** and **Returns Today** are the top tiles; **Profit (month)** and **Low Stock** sit beside them.
- The charts show the last 7 days of sales, the sale/free/replace piece mix, your top products and each van's sales.
- Numbers here are **as billed** (before returns). For profit after returns, open **Profit / Loss**.
- Use the buttons top-right to switch to the **Inventory** view, **Print**, or jump to a **New Bill**.

2 Making a bill

New Bill (menu 3, or Ctrl + N). Pick the van, type the shop code, then add item lines — the name, rate and amount fill in for you.

New Bill Clear Save & Next

VAN - REQUIRED: VAN 01
ORDER BOOKER: Saqib
DELIVERY MAN: Azhar
Set once — carries to every new bill.

SHOP CODE: 1431
SHOP NAME: AZEEM UTILITY STORE
CLASS: A / B

ADDRESS: Airport Road
BILL DATE: 01/09/2026

ITEMS: Type a product code — details fill in. REPLACE & FREE load onto the van but are not billed. + Add Line

CODE	PRODUCT	TYPE	CARTON	LOOSE PCS	TOTAL PCS	RATE	AMOUNT	T.O. %
J190A	Apple Jam 190g	S	2	0	24	110	Rs 2,640.00	0
208	COLA NEXT 1500ML	S	5	0	60	118.33	Rs 7,099.80	0

NOTES
☐ Do not apply any scheme / discount to this bill
Free-goods schemes apply automatically on save. Van / Booker / Delivery Man stay set for the next bill.

Subtotal: **Rs 9,739.80**
Tax %: 0
Trade Offer %: 0
Discount: 0
PAYABLE: Rs 9,739.80

- **Van is required.** Pick it from the dropdown; its usual **Order Booker** and **Delivery Man** fill in automatically (you can still change them).
- Type the **Shop Code** and the name & address fill in. New shop? Just type the name.
- For each line, type the product **code**; set **Carton** and/or **Loose Pcs**. Total pieces and amount update live.
- Set **Type** per line — SALE (billed), or REPLACE / FREE (loaded but not billed).
- Add a **Trade Offer %** or **Discount**; the **PAYABLE** updates. Click **Save & Next** (or Ctrl + S).
- The date is the **working day** (see §16) — it stays put until you close the day.

The rate always matches the product

Each line shows that product's own selling rate. Type your own rate only if you want to override it for that line.

3 Viewing and printing a bill

From the Bills list, click a bill to open it. You can print it, save it as a PDF, make a tax invoice, edit it, or start a return against it.

Stock Manager v2 - haramain

- **+ Add Product** to create an item; **Edit** to change its details; **Stock In** to add pieces you received.
- The list shows stock in pieces and cartons, cost, rate and value — low-stock items are easy to spot.

6 Adding or editing a product

Each product has a code, name, cost, selling rate and pieces-per-carton. The optional Group ties flavours together for schemes.

The screenshot displays the 'Haramain Marketing Services' interface. On the left is a sidebar with navigation options: OVERVIEW (Dashboard, Profit / Loss), SALES (New Bill, Bills, Returns, Load Forms), CATALOG (Products, Schemes, Shops, Purchases), ROUTES (Vans & Staff), and SYSTEM (Settings). The main area is titled 'Products / SKUs' and features a search bar and a '+ Add Product' button. A modal window titled 'Edit Product' is open, showing fields for SKU / CODE (J190A), PCS PER CARTON (12), PRODUCT NAME (Apple Jam 190g), GROUP / FLAVOUR SET (OPTIONAL) (JAM 190G), COST (PER PC) (70), RATE (PER PC) (110), MARGIN (36.4%), STOCK (READ-ONLY) (596), and MIN STOCK (PCS) (48). Below the modal is a table of products with columns for CODE, NAME, PCS PER CARTON, COST, RATE, MARGIN, and STOCK. The table lists several products, including J190A, J190M, J190S, and J190X.

CODE	NAME	PCS PER CARTON	COST	RATE	MARGIN	STOCK
152	FIZUP					
202	COLA					
208	COLA					
209	FIZUP					
3	COLA					
309	COLA					
352	COLA					
360	WATER					
J190A	Apple	12	70	110	36.4%	596
J190M	Mango Jam 190g	12	Rs 70.00	Rs 110.00	36.4%	594
J190S	Strawberry Jam 190g	12	Rs 70.00	Rs 110.00	36.4%	600
J190X	Mixed Fruit Jam 190g	12	Rs 70.00	Rs 110.00	36.4%	597

- **Cost** is what you pay (used for profit, never shown to shops); **Rate** is your selling price; **Margin** is worked out for you.
- **Group / Flavour set** — put the same group (e.g. “JAM 190G”) on every flavour of one pack so a scheme can count them together (see §8).
- **Min Stock** drives the low-stock warnings on the Dashboard.

Schemes lists your running promotions. Active schemes apply automatically to matching bills.

Stock Manager v2 · haramain

Schemes / Trade Offers

+ Add Scheme

Free-goods schemes auto-add free pieces to matching bills (loaded, not billed). Trade-offer schemes deduct a percentage of qualifying bills.

NAME	TYPE	PRODUCT	TERMS	DATE	STATUS	
Jam 190g — buy a dozen	Free Goods	Group · JAM 190G	Buy 12 → 1 free	—	Active	Edit Del
Big bill offer	Trade Offer	Whole bill	2% off ≥ Rs 20,000.00	2026-08-02	Active	Edit Del
Fizup 1500 promo	Free Goods	209 · FIZUP NEXT 1500ML	Buy 120 → 6 free	2026-08-02	Active	Edit Del
Cola 1500 promo	Free Goods	208 · COLA NEXT 1500ML	Buy 120 → 6 free	2026-08-02	Active	Edit Del

- **Free Goods** — buy so many, get so many free (the free pieces load onto the van, not billed).
- **Trade Offer** — a percentage off the bill once it reaches a minimum value.
- The **Terms** column shows each scheme at a glance; toggle a scheme **Active** or **Off** any time.

Stock Manager — Illustrated Guide

Page 8

A scheme across all flavours of a pack

This is the flavour-group scheme. Choose “A whole flavour group”, type the group, and set buy / free — mixed flavours now add up together.

- Set **Applies to** → **A whole flavour group**, then type the same **Group** you put on the products (e.g. “JAM 190G”).
- **Buy 12, Free 1** now counts every flavour together — 5 mango + 4 apple + 3 mix = a dozen earns the free piece.
- The free piece comes off the flavour the shop bought most of on that bill.
- Older “buy 12 of one flavour” schemes still work — this is just the more forgiving option for multi-flavour packs.

Why this was added

Booker boys often mix flavours (a few of each). Before, a mixed dozen missed the scheme; now it counts.

Shops holds your customers with a unique code each. Typing a shop code on a bill fills in the name and address.

Stock Manager v2 - haramain

- **Codes are unique** — you can't reuse a code without deleting the shop that owns it first.
- New shops you type on a bill are saved here automatically; a bill never renames an existing shop.
- Search by code, name or phone (Ctrl + F).

10 Vans & Staff — and the van's crew

Vans & Staff (menu, or Alt + V) is where you add your vans, order bookers and delivery men. Add each once — they then appear as dropdowns on every bill and return.

The screenshot shows the 'Vans & Staff' management screen. On the left is a sidebar with a navigation menu including Overview, Sales, Catalog, Routes (with 'Vans & Staff' selected), and System. The main area is titled 'Vans & Staff' and contains three panels: 'VANS', 'ORDER BOOKERS', and 'DELIVERY MEN'. Each panel has an input field with a placeholder (e.g., 'VAN 01', 'e.g. Saqib', 'e.g. Azhar') and an 'Add' button. Below the input fields, the 'VANS' panel shows a table with columns 'VAN', 'BOOKER', and 'DELIVERY MAN'. The 'ORDER BOOKERS' and 'DELIVERY MEN' panels show lists of added names with 'x' icons for removal. A tip at the bottom states: 'Tip: press Enter after typing a name to add it. Removing a name here does not change bills that already used it.'

VAN	BOOKER	DELIVERY MAN
VAN 01	⌵	Azhar
VAN 02	⌵	BILAL
VAN 03	⌵	BILAL

Tip: press Enter after typing a name to add it. Removing a name here does not change bills that already used it.

- Add a **van**, **order booker** or **delivery man** in its column; press Enter or click Add.
- Each **van remembers its usual booker and delivery man**. Pick the van on a bill and those two fill in automatically — still changeable per bill.
- It also learns on its own: whenever you save a bill, that van remembers the crew you used.
- Removing a name here doesn't change bills that already used it.

Why it matters

No more selecting the booker and delivery man by hand on every bill — choose the van and its crew is filled for you.

11 Purchases — buying stock in

Purchases records deliveries from your suppliers. Saving a purchase adds the pieces to stock and updates each product's cost.

The screenshot shows the 'Haramain Marketing Services' interface with a sidebar menu on the left containing sections like OVERVIEW, SALES, CATALOG, ROUTES, and SYSTEM. The main area is titled 'Purchases' and features a '+ New Purchase' button. An 'Add Scheme' dialog box is open, allowing the user to create a new purchase scheme. The dialog includes fields for Scheme Name, Type, Active status, Scheme Date, Applies To, Group, Buy PCS, and Free PCS. A note at the bottom explains that a flavour-group scheme counts every product in that group together.

SCHEME NAME
 Jam 190g — buy a dozen

TYPE
 Free Goods (piece for piece)

ACTIVE
 Yes

SCHEME DATE
 dd/mm/yyyy

APPLIES TO
 A whole flavour gr

GROUP
 JAM 190G

BUY PCS
 12

FREE PCS
 1

A flavour-group scheme counts every product in that group together — mixed flavours add up to the buy quantity, and the free piece comes off the flavour bought most on the bill.

Cancel Add

- **Net Sales** here is after returns (so profit is honest); the Dashboard shows sales before returns.
- See your **top products** and what schemes & discounts cost you.
- Print or Save as PDF for your records (Ctrl + P).

16 The working day — closing a day

Settings has a Working Day card. New bills, purchases and returns are dated to the working day — which only moves when YOU close it, not when the calendar changes.

The screenshot shows the 'Haramain Marketing Services' app interface. On the left is a sidebar menu with categories: OVERVIEW (Dashboard, Profit / Loss), SALES (New Bill, Bills, Returns, Load Forms), CATALOG (Products, Schemes, Shops, Purchases), ROUTES (Vans & Staff), and SYSTEM (Settings). The 'Settings' option is selected. The main content area has a top section for company details (BRAND NAME, ADDRESS, PHONE, BUSINESS NTN, BUSINESS GST NO., GST RATE %, DEFAULT TAX %, CURRENCY SYMBOL). Below this is the 'WORKING DAY' section, which explains that new bills, purchases, and returns are dated to the working day. It shows 'Currently working on 2026-09-01' and a button to 'Close working day (2026-09-01) & start next'. Below that is the 'VANS, BOOKERS & DELIVERY MEN' section with an 'Open Vans & Staff' button. The bottom section is 'DATA, BACKUP & STARTING FRESH', which provides information about the app's data storage and offers buttons for 'Save a backup', 'Restore from backup', and 'Open backup folder'. At the very bottom, there are buttons for 'Light', 'A-', 'A+', and 'Keys'.

- **Currently working on** shows today's working day; new entries use it.
- It **stays put across real days** until you close it — so if you don't close for two days, everything still lands on that day.
- Click **Close working day & start next** to lock that day and move to the next one; new bills then use the new day.
- Closed days are **locked** — their bills can't be edited or deleted — but new entries are never blocked; they roll onto the next open day.
- Re-open a closed day from the list if you need to correct something on it.

First time

Set your starting point by closing days up to where you want to be; after that it just advances each time you close a day.

17 Settings, backups & starting fresh

Settings holds your company details, default tax, appearance, the owner PIN, the working day (§16), a shortcut to Vans & Staff (§10), and your data tools.

The screenshot shows the 'Settings' screen of the Stock Manager v2 application. The left sidebar contains navigation options: OVERVIEW (Dashboard, Profit / Loss), SALES (New Bill, Bills, Returns, Load Forms), CATALOG (Products, Schemes, Shops, Purchases), ROUTES (Vans & Staff), and SYSTEM (Settings). The main content area is titled 'Settings' and includes sections for APPEARANCE (Theme: Dark/Light), BUSINESS (Brand Name, Address, Phone, NTN, GST), DEFAULT TAX %, WORKING DAY, and VANS, BOOKERS & DELIVERY MEN. An 'Add Scheme' dialog is open in the center, allowing the user to create a new scheme. The dialog fields include: SCHEME NAME (Jam 190g — buy a dozen), TYPE (Free Goods (piece for piece)), ACTIVE (Yes), SCHEME DATE (dd/mm/yyyy), APPLIES TO (A whole flavour gr), GROUP (JAM 190G), BUY PCS (12), and FREE PCS (1). A note explains that a flavour-group scheme counts every product in that group together. The dialog has 'Cancel' and 'Add' buttons. A 'Save' button is also visible in the top right corner of the settings screen.

- **Business details** (name, address, phone, NTN, GST) print on your bills and invoices.
- **Save a backup** regularly and keep a copy off this PC; **Restore** brings data back from a backup.
- The **Working Day** card (§16) is here, and **Open Vans & Staff** jumps to the vans/bookers screen (§10).

Backups are your safety net

Take a backup at the end of each week and always before Restore or Erase. It's the only way back if the computer is lost.

18 Keyboard shortcuts

Press F1 in the app any time to see this list. You can run a whole bill from the keyboard.

Keyboard shortcuts

- 1 Dashboard · 2 Profit / Loss · 3 New Bill · 4 Bills · 5 Load Forms · 6 Products · 7 Schemes · 8 Shops · 9 Purchases · 0 Settings **Alt + 1...0**
- Sales Returns — the ten digits were already taken, so Returns has its own key **Alt + R**
- Vans & Staff — add or remove vans, bookers and delivery men **Alt + V**
- New Bill **Ctrl + N**
- Next field on New Bill (last field adds a line) **Enter**
- Save (bill / purchase / settings) **Ctrl + S**
- Print the open bill, invoice, summary or report **Ctrl + P**
- Jump to the search / filter box **Ctrl + F**
- Close a popup — on New Bill it saves the bill **Esc**
- Bigger / smaller text **Ctrl + = / Ctrl + -**
- This help **F1**

Close

- **Alt + 1...0** jump between screens; **Alt + R** opens Returns.
- **Ctrl + N** new bill · **Enter** next field (adds a line at the end) · **Ctrl + S** save · **Esc** saves the open bill.
- **Ctrl + P** print · **Ctrl + F** search · **Ctrl + = / -** bigger / smaller text.

This illustrated guide covers Stock Manager v2.0. Every screen is the same for each company edition — only the name and logo differ. There is also a text-only version of this guide. Press **F1** in the app for the live shortcut list.
