

STOCK MANAGER

Illustrated Guide

A picture tour of every screen — with real screenshots of the app and simple steps for each one.

Inventory, Billing & Load-Form manager for your distribution business.

Screenshots use sample data; your own company name and logo appear at the top-left.

Version 2.0

This guide walks through every screen of Stock Manager with a real picture of it and a few simple steps. You can read it in order the first time, or jump to the screen you need. The menu down the left of the app is always there — click any item to open that screen, or use the keyboard shortcuts on the last page.

Before you start

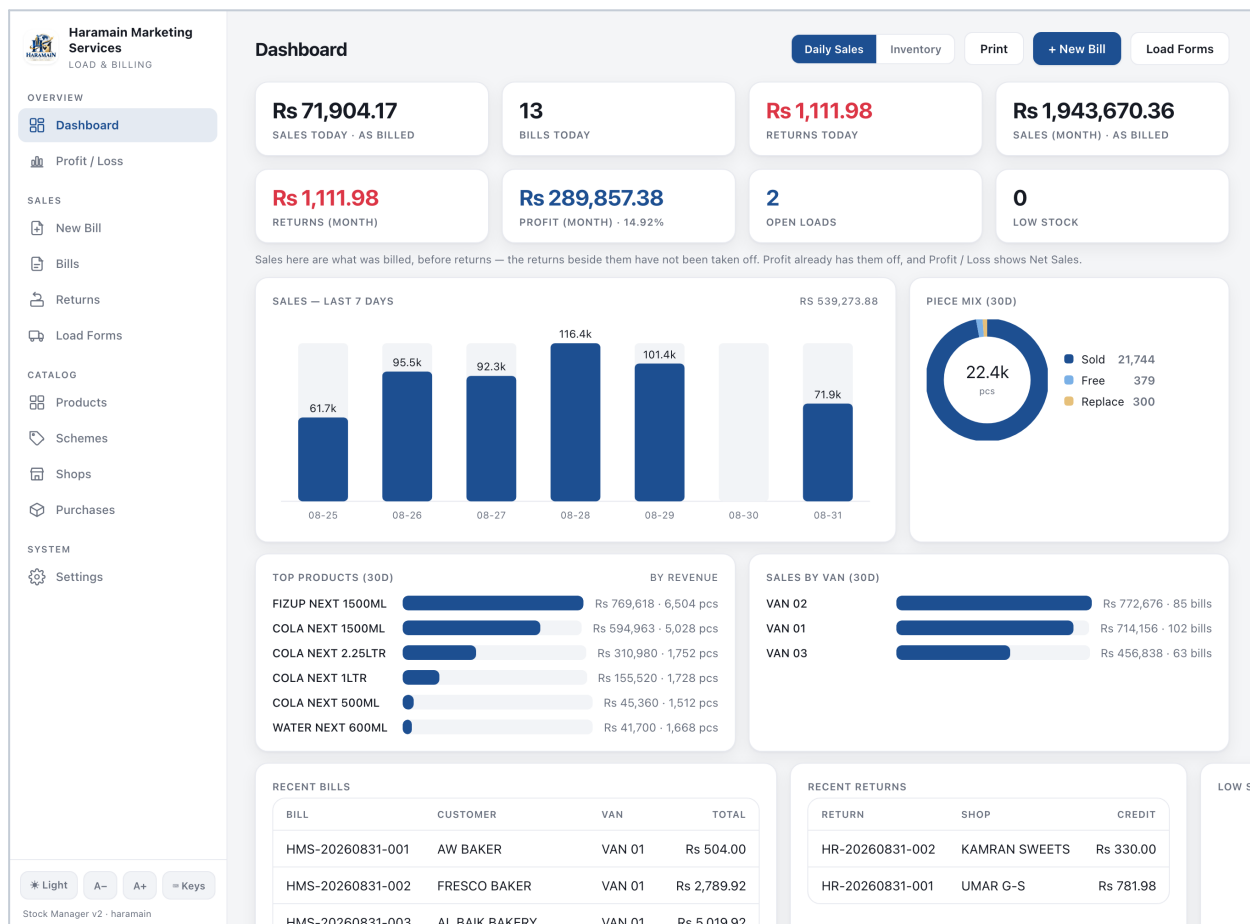

Install the app (run the “... Setup 2.0.0.exe”). The first time Windows may warn because the app is not signed — click **More info**, then **Run anyway**. Then set your company details in Settings, and take a backup every week.

A note on these pictures

The screenshots use pretend sample data so you can see full screens. In your app the numbers are your own, and your company name and logo show at the top-left.

1 The Dashboard — your day at a glance

This opens first. It shows today's and this month's sales, returns and profit, plus charts of the last 7 days, your best products, and sales by van.

- **Sales Today**, **Bills Today** and **Returns Today** are the top tiles; **Profit (month)** and **Low Stock** sit beside them.
- The charts show the last 7 days of sales, the sale/free/replace piece mix, your top products and each van's sales.
- Numbers here are **as billed** (before returns). For profit after returns, open **Profit / Loss**.
- Use the buttons top-right to switch to the **Inventory** view, **Print**, or jump to a **New Bill**.

2 Making a bill

New Bill (menu 3, or Ctrl + N). Set the van once, type the shop code, then add item lines — the name, rate and amount fill in for you.

New Bill

Clear Save & Next

VAN - REQUIRED: VAN 01 ORDER BOOKER: Saqib DELIVERY MAN: Azhar
Set once — carries to every new bill.

SHOP CODE: 1431 SHOP NAME: AZEEM UTILITY STORE CLASS: A / B
ADDRESS: Airport Road BILL DATE: 31/08/2026

ITEMS Type a product code — details fill in. REPLACE & FREE load onto the van but are not billed. + Add Line

CODE	PRODUCT	TYPE	CARTON	LOOSE PCS	TOTAL PCS	RATE	AMOUNT	T.O %
J190M	Mango Jam 190g	S	2	0	24	110	Rs 2,640.00	0
J190A	Apple Jam 190g	S	1	0	12	110	Rs 1,320.00	0
208	COLA NEXT 1500ML	S	5	0	60	118.32	Rs 7,099.80	0

NOTES
Do not apply any scheme / discount to this bill
Free-goods schemes apply automatically on save. Van / Booker / Delivery Man stay set for the next bill.

Subtotal: Rs 11,059.80
Tax %: 0
Trade Offer %: 0
Discount: 0
PAYABLE: Rs 11,059.80

- **Van is required** — pick it (and the booker / delivery man) once; they carry to the next bill.
- Type the **Shop Code** and the name & address fill in. New shop? Just type the name.
- For each line, type the product **code**; set **Carton** and/or **Loose Pcs**. Total pieces and amount update live.
- Set **Type** per line — SALE (billed), or REPLACE / FREE (loaded but not billed).
- Add a **Trade Offer %** or **Discount**; the **PAYABLE** updates. Click **Save & Next** (or Ctrl + S).

The rate always matches the product

Each line shows that product's own selling rate. Type your own rate only if you want to override it for that line.

3 Viewing and printing a bill

From the Bills list, click a bill to open it. You can print it, save it as a PDF, make a tax invoice, edit it, or start a return against it.

- **+ Add Product** to create an item; **Edit** to change its details; **Stock In** to add pieces you received.
- The list shows stock in pieces and cartons, cost, rate and value — low-stock items are easy to spot.

6 Adding or editing a product

Each product has a code, name, cost, selling rate and pieces-per-carton. The optional Group ties flavours together for schemes.

The screenshot displays the 'Haramain Marketing Services' interface. On the left is a sidebar with navigation options: OVERVIEW (Dashboard, Profit / Loss), SALES (New Bill, Bills, Returns, Load Forms), CATALOG (Products, Schemes, Shops, Purchases), and SYSTEM (Settings). The main area is titled 'Products / SKUs' and features a search bar and a '+ Add Product' button. A table lists products with columns for CODE, NAME, STOCK (CTN), and MIN. An 'Edit Product' modal is open, showing fields for SKU / CODE (J190A), PCS PER CARTON (12), PRODUCT NAME (Apple Jam 190g), GROUP / FLAVOUR SET (OPTIONAL) (JAM 190G), COST (PER PC) (70), RATE (PER PC) (110), MARGIN (36.4%), STOCK (READ-ONLY) (596), and MIN STOCK (PCS) (48). A note at the bottom of the modal states: 'Cost is the purchase price per piece — used for profit reports. Rate is the selling price.' The background table shows several jam products, including J190A, J190M, J190S, and J190X.

CODE	NAME	STOCK (CTN)	MIN
152	FIZUP	393.00	48
202	COLA	771.00	48
208	COLA	465.00	48
209	FIZUP	335.50	48
3	COLA	386.50	48
309	COLA	391.00	48
352	COLA	392.00	48
360	WATER	399.50	48
J190A	Apple	49.67	48
J190M	Mango Jam 190g	49.50	48
J190S	Strawberry Jam 190g	50.00	48
J190X	Mixed Fruit Jam 190g	49.75	48

- **Cost** is what you pay (used for profit, never shown to shops); **Rate** is your selling price; **Margin** is worked out for you.
- **Group / Flavour set** — put the same group (e.g. “JAM 190G”) on every flavour of one pack so a scheme can count them together (see §8).
- **Min Stock** drives the low-stock warnings on the Dashboard.

7 Schemes — free goods & trade offers

Schemes lists your running promotions. Active schemes apply automatically to matching bills.

The screenshot displays the 'Schemes / Trade Offers' interface in the Stock Manager v2 application. A modal window titled 'Edit Product' is open, allowing users to edit a product's details. The modal contains the following fields:

- SKU / CODE: J190A
- PCS PER CARTON: 12
- PRODUCT NAME: Apple Jam 190g
- GROUP / FLAVOUR SET (OPTIONAL): JAM 190G
- COST (PER PC): 70
- RATE (PER PC): 110
- MARGIN: 36.4%
- STOCK (READ-ONLY): 596
- MIN STOCK (PCS): 48

Below the fields, a note states: 'Cost is the purchase price per piece — used for profit reports. Rate is the selling price.' At the bottom of the modal are 'Cancel' and 'Save' buttons.

The background interface shows a list of schemes with columns for NAME, DATE, STATUS, and actions (Edit, Del). The list includes schemes like 'Jam 190g — buy a', 'Big bill offer', 'Fizup 1500 promo', and 'Cola 1500 promo'. The status column shows 'Active' for all listed schemes.

- **Free Goods** — buy so many, get so many free (the free pieces load onto the van, not billed).
- **Trade Offer** — a percentage off the bill once it reaches a minimum value.
- The **Terms** column shows each scheme at a glance; toggle a scheme **Active** or **Off** any time.

A scheme across all flavours of a pack

This is the flavour-group scheme. Choose “A whole flavour group”, type the group, and set buy / free — mixed flavours now add up together.

Add Scheme

SCHEME NAME
Jam 190g — buy a dozen

TYPE
Free Goods (piece for piece)

ACTIVE
Yes

SCHEME DATE

APPLIES TO
A whole flavour gr

GROUP
JAM 190G

BUY PCS
12

FREE PCS
1

A flavour-group scheme counts every product in that group together — mixed flavours add up to the buy quantity, and the free piece comes off the flavour bought most on the bill.

Cancel Add

- Set **Applies to** → **A whole flavour group**, then type the same **Group** you put on the products (e.g. “JAM 190G”).
- **Buy 12, Free 1** now counts every flavour together — 5 mango + 4 apple + 3 mix = a dozen earns the free piece.
- The free piece comes off the flavour the shop bought most of on that bill.
- Older “buy 12 of one flavour” schemes still work — this is just the more forgiving option for multi-flavour packs.

Why this was added

Booker boys often mix flavours (a few of each). Before, a mixed dozen missed the scheme; now it counts.

Shops holds your customers with a unique code each. Typing a shop code on a bill fills in the name and address.

Haramain Marketing Services

- **Codes are unique** — you can't reuse a code without deleting the shop that owns it first.
- New shops you type on a bill are saved here automatically; a bill never renames an existing shop.
- Search by code, name or phone (Ctrl + F).

10 Purchases — buying stock in

Purchases records deliveries from your suppliers. Saving a purchase adds the pieces to stock and updates each product's cost.

The screenshot shows the 'Haramain Marketing Services' interface with a sidebar menu on the left containing sections like OVERVIEW, SALES, CATALOG, and SYSTEM. The main area is titled 'Purchases' and features a '+ New Purchase' button. A modal dialog titled 'Add Scheme' is open, allowing the user to create a new purchase scheme. The dialog includes fields for 'SCHEME NAME' (filled with 'Jam 190g — buy a dozen'), 'TYPE' (set to 'Free Goods (piece for piece)'), 'ACTIVE' (set to 'Yes'), 'SCHEME DATE' (placeholder 'dd/mm/yyyy'), 'APPLIES TO' (set to 'A whole flavour gr'), 'GROUP' (set to 'JAM 190G'), 'BUY PCS' (set to '12'), and 'FREE PCS' (set to '1'). A note at the bottom of the dialog explains that a flavour-group scheme counts every product in that group together. The background shows a table of purchases with columns for ID, DATE, and TOTAL, and a list of products with their respective costs and 'View'/'Del' buttons.

ID	DATE	TOTAL
PUR-20260831-0		Rs 1,117,800.00
PUR-20260831-0		Rs 1,006,020.00
PUR-20260831-0		Rs 1,006,020.00
PUR-20260831-0		Rs 894,240.00

Product	Cost	View	Del
Jam 190g	Rs 1,117,800.00	View	Del
Jam 190g	Rs 1,006,020.00	View	Del
Jam 190g	Rs 1,006,020.00	View	Del
Jam 190g	Rs 894,240.00	View	Del

- **+ New Purchase:** enter date, vehicle, supplier, then one line per product (code, pieces, unit cost).
- Saving **adds stock** and refreshes cost so your profit figures stay accurate.
- Deleting a purchase removes its stock (never below zero; blocked on a closed day).

11 Sales Returns

Returns lists credit notes for goods shops send back. Each return puts good pieces back into stock and takes the credit off your sales.

Haramain Marketing Services
LOAD & BILLING

Sales Returns

Stock that came back from shops, and pieces marked Good go back into stock while damaged pieces are written off.

PIECES CREDIT

12 6 damaged	Rs 330.00	View	Del
12 6 damaged	Rs 781.98	View	Del

- **+ New Return** to record what came back; open one to view or print its **Credit Note**.
- Filter by van, date or text to find a return.
- Good pieces go back to stock; damaged pieces are written off — both credit the shop.

12 Recording a return (by van)

Pick the van once and enter everything that came back from its shops in one go — no need to open each bill or the load form.

The screenshot shows the 'New Return' form in the Haramain Marketing Services application. A modal window titled 'Add Scheme' is open, allowing the user to define a return scheme. The modal fields are as follows:

- SCHEME NAME:** Jam 190g — buy a dozen
- TYPE:** Free Goods (piece for piece)
- ACTIVE:** Yes
- SCHEME DATE:** dd/mm/yyyy
- APPLIES TO:** A whole flavour gr
- GROUP:** JAM 190G
- BUY PCS:** 12
- FREE PCS:** 1

Below the fields, a note states: 'A flavour-group scheme counts every product in that group together — mixed flavours add up to the buy quantity, and the free piece comes off the flavour bought most on the bill.'

The background shows the 'New Return' form with a 'VAN' dropdown set to 'VAN 01' and a 'J190M' dropdown. The right side shows a summary table with Subtotal Rs 660.00, Tax 0, and CREDIT TOTAL Rs 660.00.

- Choose the **Van** (required) and date; add each returned item with its pieces.
- Mark each line **Good** (back to stock) or **Damaged** (written off). Both credit the shop.
- **Save** — stock goes up for good pieces and the credit comes off sales and profit.
- To credit exactly against one bill, open that bill and use **Return Items** instead.

13 Load Forms

Load Forms bundle a van's bills into one loading sheet, and record what comes back unsold on the van.

ADD SCHEME

SCHEME NAME
Jam 190g — buy a dozen

TYPE
Free Goods (piece for piece)

ACTIVE
Yes

SCHEME DATE
dd/mm/yyyy

APPLIES TO
A whole flavour gr

GROUP
JAM 190G

BUY PCS
12

FREE PCS
1

A flavour-group scheme counts every product in that group together — mixed flavours add up to the buy quantity, and the free piece comes off the flavour bought most on the bill.

Cancel Add

- **Net Sales** here is after returns (so profit is honest); the Dashboard shows sales before returns.
- See your **top products** and what schemes & discounts cost you.
- Print or Save as PDF for your records (Ctrl + P).

15 Settings, backups & starting fresh

Settings holds your company details, default tax, saved vans/bookers, the owner PIN, appearance, day open/close, and your data tools.

The screenshot shows the 'Settings' page for 'Haramain Marketing Services'. A modal titled 'Add Scheme' is open, allowing the user to create a new scheme. The modal fields are as follows:

- SCHEME NAME:** Jam 190g — buy a dozen
- TYPE:** Free Goods (piece for piece)
- ACTIVE:** Yes
- SCHEME DATE:** dd/mm/yyyy
- APPLIES TO:** A whole flavour gr
- GROUP:** JAM 190G
- BUY PCS:** 12
- FREE PCS:** 1

Below the fields, a note states: 'A flavour-group scheme counts every product in that group together — mixed flavours add up to the buy quantity, and the free piece comes off the flavour bought most on the bill.' The modal has 'Cancel' and 'Add' buttons.

The background settings page includes sections for:

- APPEARANCE:** Theme (Dark/Light), Changes apply to (All/Selected).
- BUSINESS:** Brand Name (Haramain Marketing Services), Fixed per build, T (0), Address (H#23, Railway Station), Phone (03073976382), Business NTN (4216176-2).
- DEFAULT TAX %:** 0, Rs.
- DAY OPEN / CLOSE:** Close a date to stop new bills being added on that day. Re-open it any time to allow edits or new bills. Date: 31/08/2026, Close this date button. No dates are closed.
- VANS, BOOKERS & DELIVERY MEN:** Add these once so they appear as dropdowns on every new bill. Any new name you type on a bill is also saved here automatically.

- **Business details** (name, address, phone, NTN, GST) print on your bills and invoices.
- **Save a backup** regularly and keep a copy off this PC; **Restore** brings data back from a backup.
- **Close a day** to lock it against changes; re-open it if you need a correction.

Backups are your safety net

Take a backup at the end of each week and always before Restore or Erase. It's the only way back if the computer is lost.

16 Keyboard shortcuts

Press F1 in the app any time to see this list. You can run a whole bill from the keyboard.

Keyboard shortcuts

- 1 Dashboard · 2 Profit / Loss · 3 New Bill · 4 Bills · 5 Load Forms · 6 Products · 7 Schemes · 8 Shops · 9 Purchases · 0 Settings **Alt + 1**
- Sales Returns — the ten digits were already taken, so Returns has its own key **Alt + R**
- New Bill **Ctrl + N**
- Next field on New Bill (last field adds a line) **Enter**
- Save (bill / purchase / settings) **Ctrl + S**
- Print the open bill, invoice, summary or report **Ctrl + P**
- Jump to the search / filter box **Ctrl + F**
- Close a popup — on New Bill it saves the bill **Esc**
